

Marble is Calcium based and therefore the surface can become finely etched by acidic items such as wine and fruit juice. Spills should be wiped off as soon as possible.

To maintain its original sheen the stone should be wiped dry with a clean soft cloth.

Sealing does not prevent acid etching and therefore to maintain a stone surface it will require regular professional maintenance. Subject to the level of use.

With regards to Acid Etch Removal on vanities or working areas this will require professional assistance and maintenance

## Protection

Product: **FILA MP90 ECOPLUS**

Coverage: 1L for 30 m<sup>2</sup>

Equipment: Brush or fleece pad

Procedure: Apply an even coat of FILA MP90 ECO PLUS to the surface with a brush or fleece pad. Allow 10 minutes and then work into the stone, then remove any excess using the single disc machine and white pad, simply work over the floor to achieve an even finish, making sure any excess is removed.

\*FILA MP90 ECOPLUS doesn't protect the stone from the aggressions caused by acid attacks (for example lemon, wine, orange juice, tomato, etc.).  
proprietary cleaning materials/chemicals is not covered by our warranty.

## Maintenance to Counter Tops and other areas

Product: **FILA Refresh**

Coverage: cloth

Equipment: For daily cleaning spray Fila Brio on the surface while holding the bottle in a vertical position at about 20-30 cm from the application point. Clean with a soft cloth.

For a periodic clean to boost the protection apply Fila Refresh. Spray onto the surface and then wipe over, rubbing in until completely dry.

Fila Brio will be for daily and more regular cleaning, Fila Refresh can be used, potentially monthly. This product contains a percentage of the impregnator and so when used renews and maintains treated surfaces.

## Extra maintenance

Product: **FILA CLEANER** diluted 1:30

Coverage: Single disc machine, white pad

Equipment: 1 L for 50 m<sup>2</sup>

Procedure: Proceed by cleaning with the neutral detergent Fila Cleaner diluted 1:30 in water, apply to the surface and leave to act for 5 minutes, then work with the machine fitted with a white pad and rinse thoroughly with water, then vac up residues with a liquid-vacuum. Further rinse the surface very well with clean water and vac up any excess.

# MP90 ECO XTREME

## EXTREME ECO-COMPATIBLE WATER- AND OIL-REPELLENT PROTECTION

**POLISHED PORCELAIN TILES, MARBLE  
AND GRANITE, NATURAL STONE AND  
AGGLOMERATES, CONCRETE**

Thanks to the innovative **ULTIMATE SHIELD TECHNOLOGY**, developed in the **FILA** research laboratories, the product can be applied in the presence of residual humidity, a mere 24 hours after the initial wash.

### COVERAGE

#### APPROXIMATE COVERAGE (1 litre):

|                          |                      |
|--------------------------|----------------------|
| polished porcelain tiles | 30-50 m <sup>2</sup> |
| Polished Marble/Granite  | 20-30 m <sup>2</sup> |
| Matte honed stone        | 10-20 m <sup>2</sup> |

"Coverage shown is for guidance purposes only and refers to single coats"

#### Packaging

375 ml: boxes of 12.  
1 litre: boxes of 6.  
5 litres: boxes of 4.

#### WARNINGS

- Keep out of reach of children.
- Do not disperse into the environment after use.
- Outdoor flooring must be properly laid before being treated and must satisfy all the specific requirements, including: adequate sloping, properly executed expansion joints, perfect isolation from the underlying ground, proven compatibility with sub-zero temperatures.
- Ventilate the premises well during use and while the product is drying.
- Does not protect against acidic aggression.

#### TEMPERATURES

Storage temperature: from 5° to 30° C.  
This product must be applied to surfaces with temperature between 10° C and 30° C.

### WHAT IT'S FOR

- Water- and oil-repellent with natural finish.
- The best environmentally-friendly stain protection for porcelain tiles, natural stone, marble and granite with polished, brushed and matt smoothed finishes.
- Reduces absorption without affecting the material's natural look.
- It waterproofs, protects and facilitates cleaning.
- It is also ideal for grouting joints, ceramic and crackle effect surfaces, grit, resin-marble, and stone slabs.
- Is also suitable for treating coloured cement tiles and manufactured stones.
- It provides an anti-graffiti protection that prevents graffiti paint from bonding to surfaces. It speeds the cleaning process because graffiti can be easily removed.
- Water- and oil-repellent: it hampers the absorption of common watery and oily stains.

### ADVANTAGES

- Free of hydrocarbon solvents: eco-friendly treatment
- Being a water-based product, it withstands residual humidity conditions and can therefore be applied 24–48 hours after the initial wash, thus speeding up the treatment
- Single-coat application: apply the product and rub it gently over the surface until it is completely absorbed
- Does not form surface film and does not yellow
- Ideal for protecting tables, as well as kitchen and bathroom tops
- The surface can be walked on after just 2 hours\*\*.
- A product with an extremely low VOC and a low environmental impact; it also has the INDOOR AIR COMFORT GOLD certificate\*

\*\*Application conditions: temperature = 20°C • humidity < or = 60%  
Apply according to the indications shown on the label.

\* A product with an extremely low VOC and a low environmental impact; it also has the INDOOR AIR COMFORT GOLD certificate. The product has passed the applicable stringent requirements and conforms to all compulsory national standards (for example: FrenchA+, CAM Edilizia, Belgian Regulation, AgBB, etc.) as well as innovative environmental sustainability criteria, such as LEED, BREEAM, WELL. For further information consult [www.filasolutions.com/ita/azienda/ricerca-e-sviluppo](http://www.filasolutions.com/ita/azienda/ricerca-e-sviluppo)

### HOW TO USE IT

**No dilution required:** ready to use.

#### Application:

**Shake before use. For materials with matt finish (natural stone, terracotta, agglomerates, concrete tiles):** Apply **MP90 ECO XTREME** evenly and continuously on a clean and dry surface using a brush or fleece pad, wetting the grout lines as well. Dab any excess product with a clean cloth before it dries. On highly absorbent materials, apply two coats of product with a 20-minute interval in between.

**For polished porcelain tiles, natural stone, agglomerates with glossy finish:** Apply **MP90 ECO XTREME** on a clean and dry surface, wetting the material and grout lines completely using a brush or fleece pad. Before the product dries (roughly 10-15 minutes), rub it using a microfibre cloth wetted with the product to favour its penetration. Dry the surface with a clean cloth. To speed up the process, it is possible to treat the surface with a single-disc floor scrubber.

**To complete the cycle with the finish:** On porous materials such as natural stone, reconstructed tiles, agglomerates and concrete tiles laid in indoor environments, a finishing wax can be applied depending on the material and on the desired effect (**MATT, SATIN, CLASSIC, LONGLIFE**). The surface can be walked on after just 2 hours. Water- and oil-repellent protection takes effect after 24 hours.

**Maintenance:** use a diluted solution of **CLEANER PRO**.

#### Caution:

*Before applying to the entire surface, test the product on a small area to check for colour changes.*

*Do not apply the product externally if rain is forecast.*

*Does not protect against acidic aggression.*

# MARBLE REFRESH POLISHES AND RENEWS MARBLE WORKTOPS

MARBLE, GRANITE, NATURAL STONE,  
AGGLOMERATES: MARBLE-RESIN  
QUARTZ-RESIN MARBLE-CONCRETE, QUARTZ

## WHAT IT'S FOR

- Cleans all natural stone surfaces treated with waterproofing products.
- Renews and maintains stain-proofing protection over time.
- Perfect for marble, quartz and granite worktops.
- Can also be used on absorbent ceramic worktops that have been previously waterproofed.
- Also suitable for marble-resin and quartz-resin.

## ADVANTAGES

- Contains biodegradable ingredients
- Used on a daily basis, it cleans surfaces and reinforces stain-proofing protection treatment.
- pH neutral product, ideal also for the most delicate natural stone surfaces.
- Easy to use.
- Does not need rinsing.
- Quick drying.
- Pleasant fragrance.
- Treated surfaces are safe for food contact.

## HOW TO USE IT

**Ready to use:** no dilution required.

**Application:** Spray **MARBLE REFRESH** onto the surface and wipe with a soft dry cloth, rubbing the surface until it is completely dry. Do not rinse.

### Packaging

750 ml bottles with spray nozzle in boxes of 6.

### WARNINGS

- Keep out of reach of children.
- Do not disperse into the environment after use.

### TEMPERATURES

Storage temperature: from 5° to 30° C.  
This product must be applied to surfaces with temperature between 10°C and 30°C.

### Caution:

*Keep out of reach of children.*

# CLEANER pro

## PROFESSIONAL MAINTENANCE FOR SURFACES

**PORCELAIN AND CERAMIC TILES, CONCRETE, WOOD, MARBLE, GRANITE AND NATURAL STONE, PLASTIC LAMINATES AND LVT, LINOLEUM, RUBBER AND PVC, TERRACOTTA AND QUARRY TILES**

TECHNOLOGY FREE OF RINSE AID, developed in the FILA research laboratories: **CLEANER PRO**, can be used for ordinary cleaning and protects the surfaces against opacifying layers created by rinse aid or detergents, preserving the original appearance of the surface over time.

### COVERAGE

#### APPROXIMATE COVERAGE AND DILUTION (1 litre):

|                         |                     |
|-------------------------|---------------------|
| Maintenance 1:200       | 1500 m <sup>2</sup> |
| Initial stone wash 1:30 | 50 m <sup>2</sup>   |

The coverage is purely indicative

#### Packaging

- 1 litre: boxes of 12.
- 5 litres: boxes of 4.

#### WARNINGS

- Keep out of reach of children.
- Do not disperse into the environment after use.

#### TEMPERATURES

Storage temperature: from 5° to 30° C.  
The product should be applied to materials with temperature between 5° and 30° C.

### WHAT IT'S FOR

- Delicately cleans all types of floors and surfaces.
- Does not affect treated and delicate surfaces.
- It's essential for washing natural stone floors after being laid particularly those with polished finish that are sensitive to strong detergents.

### ADVANTAGES

- Contains biodegradable ingredients
- It cleans but does not attack.
- With high dilutions of product (1:200) there's no need to rinse as it does not leave any residues.
- Highly concentrated, can be used at various dilutions.
- Ideal for maintenance of all waxed surfaces.
- It can be used with scrubber-dryer machines at 1:200.
- Ideal for laminates.
- Pleasant fragrance.
- HACCP-compliant product
- Pet safe: suitable for spaces with domestic animals.

### HOW TO USE IT

**Dilution:** from 1:30 to 1:200 depending on requirements.

#### Application:

**For ordinary maintenance of all surfaces:** Dilute **CLEANER PRO** at 1:200 (25 ml in 5 litres of water). No need to rinse. For more stubborn dirt, wash using more concentrated solutions.

**For washing after laying of delicate surfaces (marble, travertine, granite, polished agglomerates etc.):** Dilute **CLEANER PRO** at 1:30 and wipe over the floor with a soft single-disc floor scrubber or scrubbing brush. Remove any residues using a liquid vacuum cleaner or cloth. Rinse after cleaning.

**For scrubber-dryer machines:** Dilute **CLEANER PRO** at 1:200. Pour the solution into the tank.

**For extraordinary maintenance of heavily soiled surfaces:** dilute **CLEANER PRO** from 1:30 to 1:50 depending on dirt intensity. Wash using a cloth or large brush. Remove the dirt and rinse.

**Caution:**  
do not use **CLEANER PRO** on fabric floors.
